OBJECTIVE

- Motivated Computer Science undergraduate (GPA: 9.12/10) with hands-on experience in full-stack development and a strong grounding in Data Structures and Algorithms. Eager to contribute to innovative engineering teams by leveraging object-oriented programming skills and a drive to build efficient, scalable software.

ACADEMIC DETAILS

Examination	Board/University	Institute	Year	CPI/%
B.Tech (Computer Science)	Graphic Era University	Graphic Era University, Dehradun	2024–Present	**9.12/10.00**
Class XII (C.B.S.E)	C.B.S.E	Defence Public School	2024	76.80%
Class X (I.C.S.E)	I.C.S.E	St. Patrick's Academy	2022	89.83%

FIELDS OF INTEREST

- Full-Stack Web Development, Cloud Computing, Data Structures & Algorithms.

TECHNICAL SKILLS

- **Languages:** Python (Proficient), C, C++ (Proficient), Java, JavaScript, HTML, CSS
- **Frameworks & Tools:** Node.js, Express.js, EJS, Git, REST APIs
- **Databases:** SQLite, MongoDB
- **Core Concepts:** Data Structures & Algorithms, OOP, Agile Methodology

MAJOR PROJECTS

- **OctaTrade (Paper Trading Simulator)** (Personal Project) *Node.js, Express, MongoDB, Redis, React*
  - Built a full-stack stock paper-trading platform with JWT authentication, virtual wallets, live market quotes, portfolio valuation, and **real-time order updates via Socket.IO**.
  - Engineered a multi-process order engine with **worker pools** and a **Redis-backed scheduler** (FCFS, priority with aging, round-robin), per-user distributed locks, and **MongoDB transactions** to prevent overselling.
- **Simple Storage Service (S3-Clone)** (Personal Project) *Python, Flask, SQLAlchemy, SQLite*
  - Engineered a cloud-style object storage system replicating core AWS S3 functionality with bucket-based storage, supporting **upload/download up to 100MB**.
  - Built **5+ RESTful APIs** with file archiving, metadata tracking, and error handling using strong OOP design principles.
- **Smart Food Management System** (Group Project) *Node.js, Express, MongoDB, React, JWT*
  - Architected a MERN platform connecting restaurants with NGOs to redistribute surplus food via real-time inventory tracking, expiry alerts, and a donor wishlist module.
  - Implemented **JWT authentication**, file uploads (Multer), email notifications (Nodemailer).

ACHIEVEMENTS

- Solved **400+ DSA problems** on LeetCode across arrays, trees, graphs, dynamic programming, and recursion.
- Solved **50+ DSA problems** on GeeksforGeeks covering arrays, strings, stacks, queues, and recursion.
- Maintaining a **9.12/10 GPA** in B.Tech Computer Science at Graphic Era University (till 5th Sem).

STRENGTHS

- Strong analytical and problem-solving skills, quick learner, self-motivated, effective team collaborator, and experienced in Agile-style project workflows.
